

JUNE 28 - 30, 2005 NORFOLK CONVENTION CENTER

# **NCTE**

Mr. Eric Seeland FFC N71
NETWARCOM
30 June 05

### **Tasking**

- CNO reallocated FY06 FYDP Flying Hours & Steaming Days dollars to recapitalize Fleet
- CNO counting on M&S to make up the Readiness Delta
- > We have 03 months to finish

### **Impinging Factors**

- >TF SIM
- > Joint Training
- ➤One year money
- Flying Hour/Steaming Day current reductions

### Two Tier Solution Approach

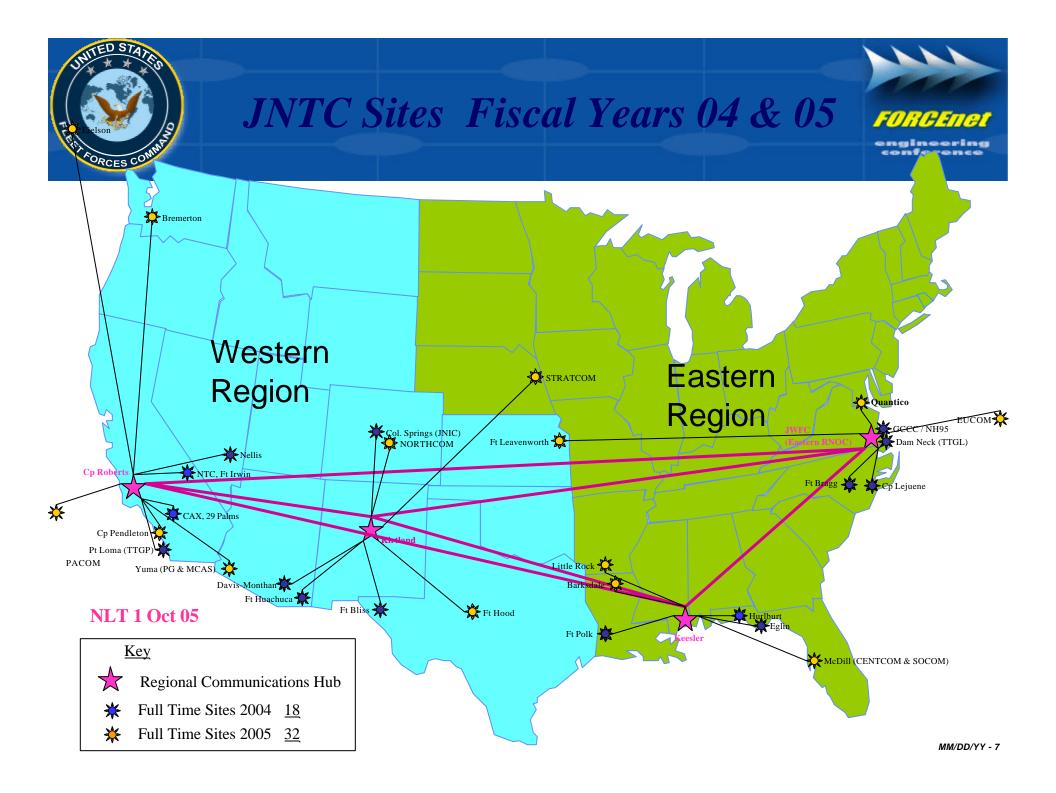

- ➤ Near Term Solution
  - ➤ Joint Training Synergy
  - ➤ NCTE Infrastructure Upgrades
  - ➤ NCTE Infrastructure Additions
- **►** Long Term Solution
  - ➤ Navy SYSCOM(s) Build Architecture
  - Linked to JNTC / Other Services

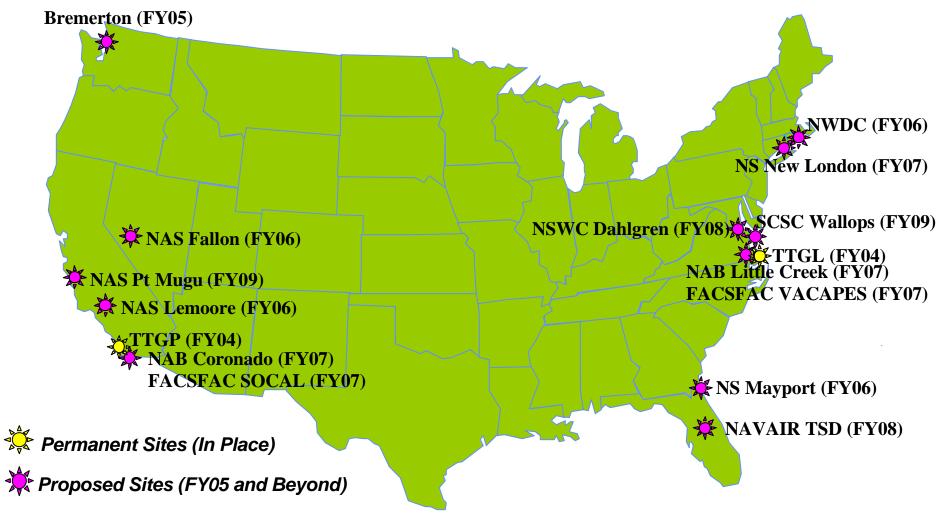

### **Joint Training**

- **Policy: OSD T2, JNTC JMO**
- >CJTFEX: Success for upgrades / Joint play
- > Joint National Training Capability
  - > Navy Continuous Training Environment
  - > Networked Synthetic JTEN Architecture
  - > Training Ranges

# Navy FY05 and Beyond Permanent JNTC States (OCONUS)

# NCTE Infrastructure

### **Infrastructure - Nodes**

- ► Level I TTGP
- Level II TTGL
- ► Level III FDNF
- Level IV FCAs

## FCA Training Nodes

- > FFC Goal: Provide FCA's BGIE-U level capability
- Node Sites: Norva / Mypt / Sdiego / PNW / MidPac / FDNF (Yoko et al). FBL Yoko / Mypt currently operational
- > Targeted capabilities include (but not limited to):
  - COMMS (UHF LOS)
  - **Link** 11
  - > WAN connections / Chat rooms / Other collaboration tools
  - > BFTT / BEWT / SLQ-32 / 89OBT TCD / BFTT Debrief
  - MRT3 / DMT / CMTpc / ITA
  - ➤ GCCS-M Connections

### Current

- FFC purchasing equipment and services to improve NCTE connectivity and capabilities based on inputs from users: e.g.
  - ➤ Improvements at TTGP and TTGL
  - ➤ Exercise Pack-Up Kits
  - >FDNF MLST3
  - Link Equip including CCD-16s and ESIM
  - Exercise Connectivity thru FY05

NO NEW PROGRAMS OF RECORD

#### **Near Term Plans**

- FFC intends to fix that which can be fixed in the near term, using current funding, taking into account long-lead items and low hanging fruit.
- ➤ Potential need for SYSCOM support to interconnect their fielded POR with NCTE Infrastructure.
- Purchase long lead items for infrastructure
- Upgrade / renovation of MUTTS in FY05
- Establish NCTE Monitoring Capability
- Investigating temp fix for non-BFTT exercise participants
- Working JSAF improvements
- ➤ All Training Infrastructure improvement plans include NCTE and Joint requirements

NO NEW PROGRAMS OF RECORD

### **Long Term Solution**

- ➤ Conducting Functional Analysis
- > Must tie into JNTC / Inter Svc Arch.
- Socialize draft Cap. Documents
- > Send up for signature
- Fwd to Functional Capabilities Board
- >SYSCOM(s) take over
